Dear Paul,

This letter confirms that as of 4th March 2016, All Clean Services Ltd meets the standards set by Citizens UK and the Centre for Civil Society for good practice by providers of personnel under contract ("UK Living Wage Service Provider Recognition Programme Agreement"). Living Wage

The Living Wage was launched by Citizens UK in 2001. The principle behind the Living Wage is simple and powerful: that work should bring dignity and should enable families to enjoy the essentials of life.

The Living Wage is calculated according to the basic cost of living in the UK and expressed as an hourly wage rate. There are two different wage rates. These are independently set and updated annually. The rate for London is calculated by the Greater London Authority ("GLA") and the rate for outside London is calculated by the Centre for Research in Social Policy ("CRSP").

Living Wage Service Provider Programme

As a Living Wage Contractor, All Clean Services Ltd has committed to the following:

1. all its employees, other than those who are engaged in delivering services under a contract for a specific client, are paid at or above the Living Wage rate as determined by GLA or CRSP, as appropriate;
2. it will increase the amount of Living Wage paid to such employees by the amount of any increase to the Living Wage as announced by GLA or CRSP, as appropriate,
